Kalekim Chemicals Co. INC.

Kalekim A.S., which was founded in 1973 by Dr.(h.c.) Ibrahim Bodur, who is also the founder of Kale Group of Companies, started its activities with the production of tile adhesives and joint fillers and continues today with producing all kinds of chemicals for the construction sector.

In year 2003 Kalekim A.S. decided to merge with Kaleterasi A.S., founded in 1968, one of the leader companies of Kale Group in plaster and painting industry. After this merger, Kalekim A.S. added Kale - branded decorative ready - mixed plasters, interior and exterior paints into its product range.

In 2004, Kalekim entered thermal insulation market together with its business partners Dow Chemical and Mardav A.S. under the brand name Blue'Safe Mavi Kale. Along with the growing thermal insulation industry, Kalekim added Stone Wool and EPS to its product range and started marketing these two products under brand name Kale Thermal Insulation Systems.

Kalekim performs its manufacturing operations domestically in Istanbul, Balıkesir, Isparta, Mersin, Yozgat, Erzurum and Mardin facilities. Today, with a total production capacity of 900 thousand tons of construction chemicals including tile adhesives, joint fillers, water and thermal insulation materials, mastics, foams, tile cleaning and maintenance materials, industrial floorings and surface preparation materials, Kalekim is also capable of producing 100 thousand tons of interior, exterior paints and decorative exterior plasters.

Today, Kalekim products are being exported to 80 countries and Kalekim is committed becoming market leader where it operates.
